WORK EXPERIENCE

Wipro Technology   May 2022 - Present

- Integrated third-party APIs to enhance functionality and improve user experience.
- Assisted in the optimization of website performance through code refactoring and debugging.
- Contributed to the maintenance and optimization of web applications, focusing on performance, accessibility, and usability enhancements.
- Stayed updated on emerging web technologies and industry trends, incorporating best practices and innovative solutions into development projects.
- Collaborated closely with UX/UI designers to refine interface designs and optimize user flows, enhancing overall user satisfaction and engagement.
- Actively engaged in responsive design implementation, ensuring consistent user experiences across diverse devices and screen resolutions.
- Collaborated closely with backend team members to develop, implement, and optimize robust backend solutions, ensuring seamless integration with front-end systems and meeting project objectives efficiently.

PERSONAL PROJECTS

Portfolio Project | Find on Github

- Developed a personal portfolio showcasing my fronted web development skills. Showcased projects, skills, and contact information in an aesthetically pleasing and user-friendly manner.
- Implemented responsive design using HTML, CSS, and Javascript to enhance user experience.

Travel Blogging Website | See Demo

- Designed in Next.js framework for better SEO and reduced load times, improved user experience, and ensured smooth performance, especially on slower networks or devices.
- Admin dashboard for managing published content, including editing, archiving, and deleting posts.
- Mobile-responsive layout ensures optimal viewing and interaction across devices, including smartphones, tablets, and desktop computers.

YouTube Clone App | Find on Github

- Developed a robust YouTube clone web application using React hooks, Redux, Routes, and state management that replicates the core functionality and user interface of YouTube
- Used Google's YouTube Video API to stream videos.
