

Ankit Mishra

Hyderabad, Telangana, India | ankit0698@gmail.com | [LinkedIn](#)

Professional Summary

Full-Stack Developer with 3.5+ years of experience building, deploying, and scaling web and mobile applications. Frontend-focused with React, Next.js, and React Native, complemented by backend experience with NestJS, Prisma, and Python Flask. Hands-on experience in Generative AI, Agentic AI, MCP-based systems, and multi-LLM platforms, along with AWS deployments, CI/CD automation using GitHub Actions, and Containerized environments with Docker and Kubernetes. Known for delivering production-ready, AI-driven systems end-to-end.

Core Competencies & Technical Skills

Languages & Frameworks: JavaScript, TypeScript, React.js, Node.js, NestJS, Express.js, HTML5, CSS3, Redux, TailwindCSS, Material UI, Python (basic).

Backend & APIs: RESTful API Development, Authentication (JWT), API Security, Data Modeling.

Databases: PostgreSQL, MongoDB, Firebase, TypeORM, PrismaORM, Sequelize.

DevOps & Cloud Platforms: AWS (EC2, S3, RDS), Docker, Git, GitHub Actions.

Tools & Practices: CI/CD, Agile/Scrum, Jira, Postman, Figma, VSCode, Responsive UI, AI/ML API Integration.

Domains: Generative AI & Agentic Architectures, Multi-LLM Platforms, AI-Driven Product Engineering, Real-Time & Event-Driven Systems, Intelligent Notification Pipelines.

Professional Experience

Full Stack Developer - 23 Ventures

Pune, India (Remote) | Sep 2024 – Present

Tech Stack: React.js, React Native, NextJS, TypeScript, NestJS, PostgreSQL, AWS, Docker, Kubernetes

Key Responsibilities:

- Led development of a **multi-LLM Generative AI platform** providing a unified interface for chat, task execution, and agent-driven workflows.
- Architected and implemented core frontend systems using **React and Next.js**, supporting real-time AI interactions.
- Designed and built agentic AI workflows enabling: Chat-based AI interactions, Task creation and execution, Automated actions via integrated third-party applications.
- Designed and configured MCP servers** to expose tools, resources, and prompts for AI agents.
- Built **MCP-based agents** capable of invoking tools, executing multi-step workflows, and coordinating actions across systems.
- Built an **LLM-powered content generation API**, enabling programmatic generation of AI content for downstream applications.
- Worked on **React Native applications** delivering AI-driven mobile experiences: AI Wine Recommendation App, AI-Assisted Social Engagement App.
- Collaborated closely with product, backend, and design teams to define system architecture, agent behavior, and user journeys.

React Developer - Wipro Technologies

Bengaluru, Karnataka, India | Mar 2022 – Aug 2024

Tech Stack: React.js, TypeScript, NextJS

Key Responsibilities:

- Worked as a **React developer** on enterprise-scale web applications.
- Built reusable UI components and frontend features using **React.js**.
- Designed and built Agentic AI workflows enabling: Chat-based AI interactions, Task creation and execution, Automated actions via integrated third-party applications.
- Integrated REST APIs and third-party services into frontend workflows.
- Improved application performance and stability through refactoring and debugging.
- Collaborated with designers and backend teams to deliver responsive, production-grade interfaces.

Education

Bachelor of Technology (B.Tech) – Information Technology | **Bengal College of Engineering and Technology**, Durgapur, West Bengal | **Batch: 2018 – 2022**

Awards & Recognition

- Microsoft Azure Fundamentals (AZ-900)**
